PROFILE

Full Stack Developer with 5+ years of professional experience in ASP.NET Core, C#, SQL, JavaScript, HTML, CSS, and RDL. Skilled in API development and integration, building robust back-end web services with schedulers and queue processors, and executing data conversions involving complex parsing and normalization. Beyond technical expertise, I bring a unique personality and positive energy to the workplace, with a knack for fostering camaraderie—undefeated in office chess and a proud winner of "Funniest Halloween Costume" at company events.

EMPLOYMENT HISTORY

May 2024 — Present

AI Trainer / Annotation Specialist, DataAnnotation Tech   (Remote) New York City

- Evaluated 50,000+ lines of code and text, enhancing AI model accuracy in Python, C#, Java, JavaScript, C, and more.
- Developed test cases for AI-generated code, including simulating user environments, resolving missing dependencies, and debugging issues introduced by AI.

Jul 2019 — May 2024

Web Developer III (Senior Developer), Justice Works   Centerville

- Led development for the company's two largest case management accounts, supporting over 1,000 daily active users and maintaining 99% up-time.
- Delivered code for 30+ case management systems, achieving over 1,000 Agile deployments.
- Designed and implemented 5+ ASP.NET full-stack projects, with 90% delivered on time.
- Engineered a secure, real-time messaging platform for legal teams and inmates, reducing communication delays from weeks to seconds.
- Mentored 15+ junior developers, many of whom advanced to team lead and senior developer roles, achieving 100% self-sufficiency.
- Developed 100+ automated reports in SQL, HTML, and XML, improving runtime efficiency by 200%.
- Executed two large-scale data conversions, ensuring 100% data integrity at launch and facilitating seamless client transitions to new platforms.

May 2018 — Jul 2019

Test Administrator, Pearson Vue   Ogden

- Maintained 100% test integrity across 800+ exams by adhering to strict Pearson VUE protocols.
- Ensured uninterrupted testing operations by troubleshooting 15+ desktops.

Nov 2014 — May 2018

Safety Trainer / Delivery Driver / Package Handler, UPS   Ogden

- Achieved Employee of the Month for maintaining a 1-in-11,000 misload rate and 100% attendance.
- Led safety training initiatives, achieving a 0% incident rate over nine months.

EDUCATION

Sep 2015 — Apr 2019

Associate of Science in Computer Science, Weber State University   Ogden

---
